**Communities United, Inc.**  
**Annual Report**  
**Program Year September 1, 2018 to August 31, 2019**

Communities United Inc. (CUI) is a community based private nonprofit organization which operates high quality, early childhood education programs and provides comprehensive services to children and their families. CUI's **Creative Start Children's Centers** operate half-day, full day and extended day child care programs for infants, toddlers, and preschoolers

Communities United, Inc. actively serves families living in the communities of Arlington, Belmont, Brookline, Burlington, Lexington, Needham, Newton, Waltham, Watertown, Wellesley and Woburn. While CUI serves children from the full socio-economic spectrum, our focus is on identifying the most at-risk families and ensuring that their needs are met. Within our catchment area reside many families experiencing homelessness, these children and families are our primary focus and are served by our center based programs.

Funding to support CUI's ongoing mission comes primarily from Federal and State sources. CUI was founded in 1970 as a Head Start grantee agency with funding from the U.S. Department of Health & Human Services which now accounts for over half of CUI's annual revenue. In 2000, CUI became an Early Head Start grantee, the Agency provides infant/toddler and preschool center-based programs.

Since health and nutrition are key components of CUI's core philosophy, CUI contracts with the U.S. Department of Agriculture (USDA) under their Child & Adult Care Food Program to provide nutritious meals -- breakfast, lunch, and snack -- to all enrolled children.

To support our philosophy of economic integration, CUI also enrolls children from families with the means to pay full tuition, which allows CUI classrooms to more closely reflect the enrollment of public school classrooms in the communities. Tuition fees account for approximately 6% of CUI's annual revenue.

As funding from federal, state and local agencies becomes less certain, it has been increasingly challenging for the Agency to meet steadily rising operational costs. CUI relies on donations from individuals, corporations, and private foundations to meet specific needs as well as to help reduce the shortfall from other funding sources.

Status of Homeless Shelters

CUI has historically prioritized the enrollment of homeless children in our center-base and home visiting programs. Over the past few years, we have become aware of the declining numbers of age-eligible, homeless children at our local shelters. In addition, the Governor made it a priority to limit families' length of stay in shelters in an effort to move them into more permanent housing. While we recognize the benefits of this families' stability, this posed a significant challenge for our home visiting program due to the constant turnover of children and the lack of age-eligible to replace them. After some lengthy discussions with

our Governing bodies, CUI made the decision to discontinue the Early Head Start and Head Start Home Visiting programs in June 2018. We do, however, continue to prioritize the enrollment of homeless families in our center-base programs.

Duration of Head Start Programs

Since 2016, when Congress approved funding for Head Start agencies to offer Duration programming with a daily and annual schedule that aligns with public schools, CUI continues to maintain 4 classrooms for Pre-K children at all sites.

Background

This report is prepared to comply with the Head Start Reauthorization Act of 2007 (Head Start Act 644A (2): “each Head Start Agency shall make available to the public a report published at least once in each fiscal year that discloses the following information from the most recently concluded fiscal year, except that reporting such information shall not reveal personally identifiable information about an individual child or parent”:

**(D) Monitoring Reviews:**

Federal review by the Office of Head Start:

The Office of Head Start conducts Federal on-site monitoring reviews. These regular reviews provide CUI with the invaluable feedback for ongoing improvement to its high quality, early education programming.

Independent Audit:

In addition to on-going, internal program monitoring and local self-assessment, Communities United Inc. receives an annual independent audit, which was performed by the audit firm of Siegrist, Cree, Alessandri & Strauss, CPA, P.C. The most recent audit, conducted in Spring 2018, was for the period ending January 31, 2018. The audit resulted in

no findings, no material weaknesses and no deficiencies of any sort. The full audit report is available for review at the Central Administrative offices of Communities United Inc., as well as at the Massachusetts State Attorney General’s Office.

**(F) Parent, Family and Community Engagement**

As part of its mission and philosophy, CUI is committed to systematic and integrated parent and family engagement activities to achieve outcomes that result in children who are healthy and ready for school. In recognition of this important component, which is unique to Head Start, CUI incorporated the full-time position, Director of Family and Community Engagement, to focus on this vital service. Family Engagement occurs in all aspects of the agency and provides a wide variety of ways for parents to be involved. Parent and family engagement activities are grounded in positive, ongoing and goal-oriented relationships with families. These activities include:

- Two home visits and three teacher/parent conferences yearly to enable staff to acquire a better understanding of each child’s abilities and experiences, to share progress with parents, and to share activities, ideas, and materials which help parents in their role as their child’s primary teacher.
- Volunteer activities in such areas as Policy Council, classroom helper, kitchen helper, Health Services Advisory Committee (HSAC) and more.
- Guidance on community services to promote awareness and utilization of available resources, including the availability of an extensive Community Resource Guide.
- Monthly on-site parent trainings on topics such as Health & Safety, Family Literacy, Parenting, Transitions, Nutrition, Oral Health, Stress Management and Advocacy.
- Center and agency-wide family events that promote diversity and social connections and provide enrichment from the many cultures and ethnicities represented in our communities.
- STEM and literacy events to introduce activities that can be done in the home, which include the development of take-home activity kits.
- Parental access to substitute teacher training, which provides familiarity with child development and appropriate practices with young children, as well as the opportunity to work as a substitute teacher in CUI programs (which may lead to permanent employment).

- Development of an Individual Family Engagement Plan, which helps parents identify goals which can lead to self-enrichment, gainful employment or greater understanding of their role as a parent and their child’s primary teacher.
- Participation in trainings and events regarding the transition to Kindergarten process, to ensure the child’s and parents’ success in elementary school.
- Leadership development opportunities, through Parent Committee meetings, Policy Council meetings, legislative breakfasts and advocacy activities at the local and state level.

**(G) School Readiness**

Each year CUI develops a School Readiness Plan to ensure that all children are prepared when they enter kindergarten. This plan is based on the belief that it is everyone’s responsibility to support children during the early years and that a strong partnership between families, educators, schools and communities is a key factor in determining children’s future school success. According to the Office of Head Start, ***School Readiness*** is when children have the “**skills, knowledge, and attitudes that are necessary for success in school and for later learning throughout life.**”

During the 2018-2019 school year, the Office of Head Start offered a Dual Language Learning (DLL) Academy with a focus to address the growing numbers of children and families whose primary language is other than English. CUI convened a multi-disciplinary team, that included, Program Directors, Education Mangers, Social Service staff, Educators and a parent to participate. Included with the DLL Academy was a survey that was

completed by all parents, staff, Board members and Policy Council parents agency-wide. The primary result indicated a need to strengthen DLL health service sharing. Armed with this information, CUI developed, and wove into our annual School Readiness Plan, a year-long track of health related home and school activities, handouts and articles in the multiple, predominant languages of your families.

CUI is committed to preparing children and families for a lifelong journey of learning. Our ultimate goal is to develop ***Ready Families, Ready Educators, Ready Schools, Ready Children and Ready Communities***.

Preparation for kindergarten begins at the initial home visit, which takes place before the child begins attending a CUI program. Through interview and documentation, CUI staff members obtain information about the child's developmental progress and the parent's goals for the child entering the school year. This conversation continues at registration and orientation as the child begins attending the program. The teaching staff complete an initial preschool assessment, which is the teacher's assessment of the child in 5 areas:

- Social-Emotional Development
- Language and Literacy
- Math
- Creativity
- Physical Development

Information obtained through parent interviews and this initial assessment allows the teaching staff to individualize curriculum to meet the child's needs and the parent's goals for the child.

Throughout the year, the teaching staff record observations of the child's progress in the following areas:

- Social/Emotional
- Approaches to Learning
- Language, Literacy
- Math
- Science
- Creative Arts
- Physical Health

These observations assist the teaching staff in completing child outcomes/assessments, using the research-based Teaching Strategies GOLD assessment tool, in the Fall, Winter and Spring. These outcomes allow the teaching staff to track the child's progress and to continue to individualize curriculum to meet that child's ongoing needs. Parents receive feedback about their child's progress formally at three parent conferences, and informally throughout the year.

CUI also utilizes a Transition to Kindergarten checklist, which assists the teaching staff in helping both the child and the parent make a smooth transition from our programs to kindergarten. Teaching and social service staff help the parent identify which kindergarten program the child will be attending. Our staff obtain key information to aid in the family's

transition, including details about the documentation needed by the parent for enrollment, registration dates and visiting dates. This information is shared with the parent and assistance is provided by CUI staff to help the parent obtain all of the documents required for kindergarten enrollment.

CUI invites kindergarten teachers, principals and assistant principals to attend CUI sponsored workshops and parent committee meetings, which allow parents to learn more about the kindergarten program and to ask questions in smaller, more intimate settings. CUI staff encourage parents to attend any transitional or kindergarten workshops held at their child’s prospective school and will attend workshops to support parents, if necessary.

The CUI teaching staff conduct classroom activities designed to familiarize the child with kindergarten. Teachers integrate the topic of kindergarten into curriculum through relevant books and materials. Each child transitioning to kindergarten receives a transition book about kindergarten and packets of information for the parents, including at home activities to do during the summer to help the child prepare for kindergarten.

The Head Start Early Learning Outcomes Framework is CUI’s primary guide in implementing a developmentally appropriate curriculum and assessment that aligns to our school readiness goals and tracks children’s progress across the Five Essential Domains. Teaching Strategies GOLD data is collected three times a year and used to determine how our children are doing in each of the Domains. This data is analyzed thoroughly by our Director of Early Childhood Education and Education Managers. The results of this analysis are shared with Policy Council, the Board of Directors and Parent Committees who use the data to assess the impact of our program options.

Spring 2019 GOLD Assessment Data (summarized below, comparing Spring to Fall results) shows the impact that our program has had on meeting the educational needs of children in our programs.
